Education

Chandigarh University, BE in Computer Science

Aug 2021 – May 2025

- **Specialization:** Artificial Intelligence and Machine Learning

Technologies

Languages: HTML, CSS, Javascript, Python, Go, C, Java, SQL

Tech Stack: React.js, Next.js, Node.js, Express, Django, Tailwind CSS, Redux, JWT, Selenium, Automation

Experience

Frontend Developer, Devfrend Web Solutions – Delhi, Haryana

May 2025 – Present

- Revamped client dashboards using React.js and Tailwind CSS, improving page load speed by 40% and reducing bounce rate by 30%.
- Enhanced cross-browser compatibility and mobile responsiveness, ensuring seamless UX across devices.
- Built responsive, pixel-perfect UIs using React.js and Tailwind CSS across multiple client projects.

Software Engineer Intern, Bobble Ai – Gurugram, Haryana

May 2024 – May 2025

- Built a cross-platform Firebase Debug Events Dashboard for real-time Android & iOS logs, improving debugging speed & accuracy.
- Created a Sticker Validation Dashboard in Next.js to streamline content review for annotators.
- Added unit tests and automated deployment with GitLab CI/CD for seamless builds and continuous integration.
- Developed and containerized a Go-based API using Clean Architecture for time and location-based sticker retrieval, leveraging Viper, GORM, and Go Migrate.
- Engineered end-to-end functionality for AI-powered task modules, including creation, retrieval, editing, and state management.

Full Stack Developer Intern, Hatchnhack Solutions Pvt Ltd – Delhi, Haryana

July 2023 – Sep 2023

- Designed and developed a complete restaurant management system for an Australian client, streamlining online orders, reservations, and table management.

Projects

Brainstreamliner – Mental Health & Psychology Training Website

[source code](#)

- Developed a professional website for a clinical psychologist to showcase mental health services and psychology training programs, enhancing credibility and client outreach.
- Focused on intuitive navigation, calming design, and mobile responsiveness to support user trust & accessibility.
- Tools Used: React.js, Tailwindcss

Zora Tech

[source code](#)

- Designed and developed a sleek business website for a tech services company to professionally present offerings, enhance brand identity, and attract leads.
- Tools Used: Typescript, Tailwindcss, Nextjs2

E-Commerce Platform: Four Five 7

[source code](#)

- Built a full-featured e-commerce platform with an intuitive admin dashboard for product management, order tracking, and real-time analytics. Integrated secure payment gateways to ensure seamless user experience.
- Tools Used: Nextjs2, Tailwindcss, Typescript, Supabase, Postgresql
